First Course In Turbulence Poopshooter

This is the first book specifically designed to offer the student a smooth transitional course between elementary fluid dynamics (which gives only last-minute attention to turbulence) and the professional literature on turbulent flow, where an advanced viewpoint is assumed. The subject of turbulence, the most forbidding in fluid dynamics, has usually proved treacherous to the beginner, caught in the whirls and eddies of its nonlinearities and statistical imponderables.

A First Course in Turbulence - MIT Press Books

Henk Tennekes is Director of Research Emeritus at the Royal Netherlands Meteorological Institute, Emeritus Professor of Meteorology at the Free University (VU) in Amsterdam, and Emeritus Professor of Aerospace Engineering at Pennsylvania State University. He is the coauthor of A First Course in Turbulence (MIT Press, 1972).

The poems in First Course in Turbulence have helped me in my life and my own writing. If you are a lover, read Dean Young. If you are a poet, read Dean Young. If you are suffering from some vague, psychosomatic illness, read Dean Young. These poems will help you heal. These are poems to read aloud, preferably after a huge meal.
