Hello. I recently bought a new wireless print server model WPS54G.Im using a USRobotics Router.When i connect the wireless print server with the router via LAN cable, it all works out.But when i remove the lan cable,as listed in the installation manual Page 14/15/16/17 when i follow them and at the end page it says connection Failed. and the Wireless print server says it has Power, Wireless ...

WPS54G wireless conection problem.(failed) - Linksys Community

This is how you experiment with different Mhz channels and get the most juice from your wireless router. If your router supports 300mbps, then switching to 20 Mhz will disable a single stream and provide you with only half the speed. But if you choose to go with 40 Mhz, you'll get the full output as a signal. STEP 4: Testing
